2 Dead, One Injured As Machine Crashes Near Lloydminster

Accident Occurs Two Miles West of Fair
Grounds When Plane Goes Into Tail-
spin Saturday Night

Excerpts to Edmonton Bulletin

LLOYDMINSTER, July 13.—Going into a tailspin at an altitude of 1,200 feet, a Waco biplane plunged to the ground before the horrified gaze of 2,500 people here shortly after 7:30 p.m. Saturday, carrying two men to their deaths and seriously injuring a third. The accident occurred two miles west of the local exhibition grounds and the plane buried its nose several feet in the ground under force of the impact.

The dead:

Aurthur Bleyle, pilot, age 38, Saskatoon.
William Bramhall, passenger, age 22, Lloydminster.
Injured:
A. W. Lang, passenger, age 27, Kitcoto.

Pilot Instantly
KILLED IN CRASH

Bleyle, who was instantly killed by the force of the crash while Bramhall died three hours later in the Lloydminster hospital from his extensive injuries. The third occupant of the machine, A. W. Lang, is still in a critical condition.

A crowd of 2,500 people were jammed into the grandstand when the Grand-Gradite game when a cry was heard that a biplane had gone down across the prairie to the scene of the race. The plane, which had been the property of the owner of the projector showed and the engine was still running when it hit the ground.

PILOT ALERTS FIRE

The plane had been up on several occasions and had been flying low over the bodies of a great show set up from the Parisians who were there to mark the 100th anniversary of the fall of the Bastille, one of France's most important holidays.

Expect to Complete Jour-
ney to Tokyo in Sixty-
two Hours

Associated Press

PARIS, July 13.—The French aviators, Joseph Lebrin and Marcel Doret, with their mechanic, Rebe Meiss, flying Douglas monoplane, left Moscow at 10:30 a.m. Moscow time (11 a.m. E.S.T.), Sunday, in their airplane "Paris Aces."

The news was immediately flashed on electric signs along the Berlin boulevard, a great show was set up from the Parisians who were there to mark the 100th anniversary of the fall of the Bastille, one of France's most important holidays.

AHEAD OF SCHEDULE

It was the first news of the flyers which had reached here since they were reported to have started out a little more than an hour after they took off from Le Bourges airdrome.

Economic Chaos Feared in Europe

DELAYS BY FRANCE ARE CRITICIZED

British Leaders Abandon Weekend Pleasures to Watch Situation

By P. H. MYRING
Associated Press Correspondent

London, July 13.—Political days in world history were believed in Britain Monday to be immediately ahead.

It was felt particularly in financial circles that even the next 24 or 48 hours might produce developments which would bring about a general economic section of Europe which will all the attention of the world's financial leaders. President Hoover's gesture really would be the signal.

OUTWARDLY CALM

Although outwardly the British weekend plans brooked no touch of the economic situation, events stirring was present in many quarters.

Businessmen, commercial directors and many others abandoned their usual weekend activities in favor of touch by telephone with representatives in Paris and Berlin and it is safe to say that every member of the number of Government officials was on duty.

Security with which London normal and other leaders of international finance have been maintaining themselves has a natural consequence in press rooms and sources of all kinds in the press.

One important Sunday newspaper editor was heading in to his office to report that the United States Federal Reserve Board had voted to grant the Reichsbank credit \$20,000,000 to \$100,000,000.

DIVERTMENT NEWS

On Saturday, news commenters concentrated more on the political aspects of the situation with special reference to the present attitude of the British government.

The British news columnists and others attempted to give their readers some clue through the mass of official statements that the divergence of views naturally were expressed in the economic situation and a natural consequence thereof.

On Monday morning everything was quiet in the St. James's Club, while the French and United States representatives were discussing the Hoover proposal.

MORE ABOUT PLANE CRASH

CONTINUED FROM PAGE ONE

The biplane went into a tailspin. The pilot seemed to have it straightened out again at about 200 feet when a heavy load of smoke from the engine exploded and crated into a field, two miles west of the exhibition grounds. Only the pilot and his co-pilot, who had jumped out of the plane saved the plane from hitting the ground. The biplane had occurred in the fur business while the stores had suffered in consequence of the fall in prices. The stores had been given preference over all other stores.

The plane, a Waco, number 10, was Jefferson CF-AC, owned by pilot alone, and was flying from the airfield to a heavy loss on operations during the year ended May 31. The officials of the Hudson Bay Company announced that the Hudson Bay Stores were in a position to declare any dividend on receipt of either preference or ordinary shares.

One source stated: "The Governor and Committee regret that the Hudson Bay Stores have not yet been able to get a final court of the properties he had purchased under July 22."

Charles Bramall, managing director of the company for many years, responded last January and the stockholders accepted the proposal of the Canadian Company to deal with the stores business, but the company had not yet been able to get a final court of the properties he had purchased under July 22."

The Hudson Bay Stores had been in the plate, half buried in the soft earth, tilted its tail skyward.

The two passengers were unconscious.

The injured men were rushed to the hospital where it was found that Bramall was suffering with a fracture at the base of his skull. He died three hours later.

Both men had been in the same condition when they were found.

LONG STILL LIVING

Bramall, who died from injuries to the skull, lived at 731 Main street, Saskatoon. Albert Lang, of Macleod, Alta., died at 731 Main street, Saskatoon, this morning.

The dead pilot, 20, in England, was recognized as one of the best airmen in the country, having taken his training at the Royal Air Force school, was prevented from active service in the Royal Air Force due to injuries received in a motor vehicle accident.

After the war Bramall entered a business house at St. Albans for ten years.

Coming to Saskatoon two years ago, he worked for the Canadian Airways, he worked with Richard Mayson, manager of the Saskatoon store, for a year and a half, and a month ago.

He is survived by his widow and four young children in Saskatoon.

William Bramall, 22, was the only son of Charles and Mrs. Bramall of Lethbridge. He was born in the border town and at the time of his death was a student at the post office staff.

Albert Lang, 27, died with his parents at 731 Main street, near Kinsmen, Alberta, and was only in Lethbridge for two weeks.

The body of the pilot is being forwarded to Saskatoon for burial after preparation by the local undertaking parlor.

Members of the deceased pilot's family are to be advised of the details of the arrangements in the hands of Macleod's undertakers.

The body of the deceased is unknown and is being investigated by Howard Cawthron, provincial director of civil aviation.

MORE ABOUT FARM RELIEF

CONTINUED FROM PAGE ONE

Aberia in connection with an operation between the three provincial Wheat pools and agreements with the banks and the federal government on farm relief movements. From previous to the signing of jointed agreements may be made to assist the provinces to receive a sum of money to help cover the cost of relief measures.

FOD REACHES DECISION

After a long session, the Delegates of the Saskatchewan Wheat Pool in conference have spent the whole of Saturday in the city, and have decided on a future policy of organization in the province. The decision was reached by the Mactaquac Board failing to materialize. A tentative policy was agreed upon in case of a failure to reach agreement which will be announced to all pool members as soon as possible. The decision is received with interest. The Delegates, however, have held the idea before them of a marketing board which would be responsible for the control of wheat production in the province.

Every effort has been put forward to reach an agreement, but there exists a very real grave danger that the low prices would cause grain to be exported and the market would be flooded with foreign grain.

The advance sale of tickets to the fair has taken a considerable jump in the last few days, and the advance sale for an exhibition does not meet the large attendance.

"Bigger and better than ever."

The advance sale of tickets to the fair has taken a considerable jump in the last few days, and the advance sale for an exhibition does not meet the large attendance.

"Now Look Here, Your Majesty!"

CANUCKS FALL TRIFLE SHORT OF BISLEY WIN

Lieut. Desmond Burke, Ottawa, Shows Consistent Good Form

By THOMAS T. CHAMPION
Globe and Mail Correspondent
BISLEY CAMP, ENGLAND, July 13— Excellent shooting was seen as four Canadian teams took part in the Bisley shot gun trials, held by the National Rifle Association, great English meeting place. As far as results go, the Canadian Military marksmen were not up to scratch, but the leading Canadians were just a trifle short of the British record. The Canadian team left among the thousands of crack riflemen who have come here from all parts of the Empire.

BISLEY STAR WINNERS

The Daily Mail Cup and \$50 was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The Daily Mail Silver cup shot at 200 yards was won by Captain George MacCallum of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fourth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The sixth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The seventh day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The eighth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The ninth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The tenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The eleventh day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twelfth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirteenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fourteenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifteenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The sixteenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The seventeenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The eighteenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The nineteenth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twentieth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-first day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-second day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-third day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-fourth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-fifth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-sixth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-seventh day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-eighth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The twenty-ninth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirtieth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-first day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-second day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-third day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-fourth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-fifth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-sixth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-seventh day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-eighth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The thirty-ninth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-first day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-second day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-third day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-fourth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-fifth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-sixth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-seventh day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-eighth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The forty-ninth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The五十日 of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-first day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-second day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-third day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-fourth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-fifth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-sixth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-seventh day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-eighth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The fifty-ninth day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The六十日 of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The sixty-first day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The sixty-second day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$1000 trophy was won by the match, fired at 600 yards. Lieut. G. R. MacCallum, of the Argyll and Sutherland regiment, and Sergeant J. G. O. McEwan, of the Royal Engineers, were the first and second respectively.

The sixty-third day of the day was the Duke of Cambridge shoot at the Bisley camp, and the \$1000 trophy was won by Major Barty, late of the Indian Army, one of the Bisley stars, and the \$

"In all thy ways acknowledge Him, and He shall direct thy paths." —Prov. 3:11.

IF IT WILL HELP ALBERTA THE EDMONTON BULLETIN IS FOR IT

MONDAY, JULY 13

REGULATION IS REQUIRED

The streets of the city are the property of the public and it is the duty of the police to regulate traffic in a way that will minimize interference and confusion, and will prevent the likelihood of disturbance of the peace.

That is the basis of the bylaw by which it is proposed that persons arranging a parade on the streets shall give advance notice to the chief of the police, and that the chief shall have a measure of discretionary power as to whether or not to grant any application, and also to the banners that may be carried and the general conduct of the affair.

Whatever fault may be found with the details of the bylaw as drafted, there is no valid ground for objecting to regulations of this nature, and very substantial reasons why there should be such regulations. A number of incidents, both discreditable and dangerous, would have been avoided in times recent and remote if there had been some arrangement of the kind in force.

A COUNTRY TO BANK ON

Since the first of last August more than nine million bushels of wheat and nearly twelve million bushels of grain of all kinds have been shipped from the north end over the lines of the North-eastern Alberta Railways. This is a half-million bushels more than shipped out in the previous "peak" year when the phenomenal crop of 1928 was harvested.

The great bulk of that grain came from the Peace River district. Since crops last year were good but not remarkable, the figures supply proof that during these difficult times production there is rapidly approaching the volume which Sir Henry Thornton said would warrant the construction of a direct railway outlet from Peace River to the coast.

At present the grain and money cheap, this is a time when the Dominion might very well anticipate matters and undertake the construction of this railway at once. The business world would be created, and the attention that would be drawn to the Peace River area, would induce a further increase in production that might easily provide the required amount of traffic to justify the investment from the time the road was completed.

FIRST THINGS FIRST

Members of parliament have quite enthusiastically the other day over a proposal to organize unemployed men into "working battalions" and send them forth to attack some hypothetical project or projects in the nature of constructive or other useful undertakings.

All well and good so far as it goes, but it simply does not "go" anywhere in the direction of solving the problem. The first thing to do is to translate those imaginary undertakings into real ones, by voting the necessary money and committing the country to their completion. That done, the organization of the working battalions will follow as a matter of detail which will depend to a good deal upon the nature of the work to be done.

If parliament will vote a sum out of the public till of veterans and order the Government to proceed with the construction of the Trans-Canada highway, the Peace River outlet, and the St. Lawrence waterway, it can be left to the Minister of Labour to call up working gangs "battalions" or any other appropriate name they please. What is needed, and what the country is concerned about, is that the idle men be given a chance to go to work and to earn wages before winter comes again and puts an end to outdoor activities.

ROUND AND ROUND AGAIN

There is a hint that Ottawa has changed its mind again on the subject of air mail. It is reported that under existing conditions there will be a complete suspension of air mail service throughout Canada. That unwelcome possibility is strengthened by the knowledge that this was the result of a protest by the decision to continue a modified service was only a concession made in response to public protest.

It is to be hoped public protest will be equally prompt now, and equally effective

in helping the Ministers to change their minds once more. If air mail cannot pay, it is still more certain that commercial aviation cannot pay anywhere in Canada without air mail. The loss of revenue from the earnings from passenger traffic and other sources. A suspension of the mail service for a year would mean a halt all along the line in commercial use of the planes. This would bring racing some of these costly machines, throw hundreds of men out of employment, and setting the companies concerned behind in their financial affairs.

And it is yet to be demonstrated that air mail, at least in western Canada, means an inevitable loss. Up to the present season the mail planes in the west were operated under conditions which made the service the best possible to the business interests of the country, and therefore drew to it the minimum amount of revenue. With the lighting arrangements completed, landing fields located and equipped, and the mail planes flying at night, the way has been cleared and the investment made for giving the mail service a fair chance to get mail to earth.

That aside, what Canada needs at this juncture more than anything else is a demonstration of faith, courage and hope on the part of its Government. That vital necessity of helpful leadership is exactly what is needed in getting men on a subject of this kind its fruition. Ministers keep flapping about like weather-cocks in a windstorm.

Forty Years Ago

From the File of the Edmonton Bulletin

Editor's note: There is on copy of the issue of the Bulletin of Saturday, July 11th, 1891 on the Bulletin file; hence forty years ago items will be omitted from this column until Saturday, July 18th.

THIRTY YEARS AGO

Peterborough—A modified kind of naval war is being fought by white and Jap fisherman on the Fraser river, with the police collecting prisoners of war from both sides.

Mr. G. H. Evans, Ill., nobbed a crowd of Dewies' disciples.

Lord Kitchener reports that British wounded have been killed by bores.

Mr. T. E. Dunn started at Buffalo to stamp out cigarette smoking.

The trial of Earl Russell for bigamy has set England society agog.

Mr. Dunn bought \$10,000 worth of ornaments at Cagley's.

TWENTY YEARS AGO

Ottawa—Hon. A. K. McLean, attorney general of Nova Scotia, is quitting politics and will practice law.

Arrangements for an excursion of business men through central Alberta has been made by the Edmonton Chamber of Commerce.

The steamer "Government" steamer Minnie sailed for Hudson Bay. Officials planned to examine the entrance to Fort Churchill and other possible terminals for the proposed railway.

The commissioners reported that the oil fair was held in the same recreation grounds.

J. B. Taft is operating a stage line to Grande Prairie and Peace River.

TEN YEARS AGO

Washington—Favorable responses have been received from all but one of the powers to which President Harding addressed his proposal for a conference on disarmament.

Mr. George Hawker, the famous oarsman, was killed on the London Flying boat. Hawker in 1915 attempted a flight across the Atlantic from Canada to Ireland, but his machine fell in mid-ocean. He was rescued by the Danish steamer Mary.

Mr. J. D. Valera and other Irish republican leaders arrived here to attend the conference with Premier Lloyd George.

An Argument

BY EDGAR A. GUEST

When there's just a four-foot putt
Or shake a mavin' shot,
I'm bound to miss, I'm sure, but—

For when they shot desert the line
And into bunkers fell,

I know the blunder, but—mine—
They'll never see me fall.

Last year I shot some fearful fours
But all that I could do was—

When drives of mine went out of bounds
Was—"That's not my dot."

For that's the sort that's on mounting high

No one can see all—

But now I have an albat.

I blame the larger ball.

The old ball may have had a flight.

The new ball seems to lack.

But is my going prayer at night

For an albat to bring me back?

As I am so rare,

It seems to soothe my soul to say.

The Toronto Telegram—In visiting Russia, Mr. Shaw must bear in mind the fact that an American lady was recently expelled for making unseemly advances to him.

It is to be hoped that our government will take a stand in this case.

Manitoba Free Press—Unless this country fails down hard in dealing with the unemployment problem, the 10th anniversary of the meetings in Manitoba will be put to work in a short time on construction projects of different kinds.

Toronto Globe—The budget boost for the West, amounting to a Federal subsidy of five cents a bushel on wheat exported, has not provided either a crop or a market for the wheat. The task of rendering help has nothing to offer. The job of rendering help has to be taken in a much bigger way.

Toronto Star—The time is not far distant when energetic and enthusiastic aviators may hop across Canada between meals and vary the monopoly by week-end trips around the world.

Manitoba Free Press—Unless this country fails down hard in dealing with the unemployment problem, the 10th anniversary of the meetings in Manitoba will be put to work in a short time on construction projects of different kinds.

Toronto Globe—The budget boost for the West, amounting to a Federal subsidy of five cents a bushel on wheat exported, has not provided either a crop or a market for the wheat. The task of rendering help has nothing to offer. The job of rendering help has to be taken in a much bigger way.

It is to be hoped public protest will be equally prompt now, and equally effective

A Balance Sheet

BY GLENN FRANK

BY GLENN FRANK

We are in a position to put over, however, because as many of their prophecies have been knocked galley west during the last two years, but there is much careful analysis of the factors involved in the present situation.

It is to be quite naturally,

seen that the world is

an economic unit.

Murray Shields and Bertrand Nichols, professors of economics at the University of Pittsburgh have produced a comprehensive study of the world's economic situation, and they like the following favorable and unfavorable factors:

Among the factors favorable to recovery are:

(1) The reduced cost of living in the United States.

(2) The low rate of production as compared to the normal rate of consumption.

(3) The materially improved credit situation.

(4) The unusually low level of international trade.

(5) The extensive deflation in wholesale commodity prices.

(6) The reduced inventories of retail trade.

Among the factors unfavorable to recovery are:

(1) The high cost of living in the United States.

(2) The high rate of production as compared to the normal rate of consumption.

(3) The deterioration of credit.

(4) The high level of international trade.

(5) The high cost of living in Canada.

(6) The high cost of living in the United States.

What all this is going to do is to make men and women realize the importance of saving and the importance of a public service.

"WELL PLAYED, MR. GUEST!"

Here's action! Chasing his horse about in mid-air after a dash down the polo field at Westbury Long Island Raymond Clegg, of the Toronto team, leaped over to snash the ball and provide this striking picture. The ball was kicked over by a member of the New England team with the Newburn team in the Meadow Brook Polo club cup tournament.

AMUSEMENTS

AT THE CAPITOL

Audiences have seen Norma Shearer as a glittering society lady, but have seen her as a brilliant soprano, as a woman who can't get away from her mother, as she plays the sensational heroine of the radio serial "May Rose," as a seductive dame, as a little New Hampshire girl.

AT THE EMPRESS

Rockville Fellowes, who has been a screen favorite ever since the day he first appeared in "The Thin Man," is charmingly sophisticated as in "Strangers May Kiss." She is a woman of many moods, and the expose of lawlessness and intrigue in a big city, which opened today at the Empress, is sure to keep audiences interested for three days.

AT THE RIALTO

The work of the supporting cast is equally as excellent as the film itself. It is first rate, foremost Miss Shearer, who is the star, the next being Harry Liedtke in "Street of Chance" directed.

Golfer's who have had their troubles ending new ways, they're learning to play golf in the golf series, "The Sports." A golfer, who has been a bit too convincing the crowd, while making interesting scenes were shown in "Par-

AT THE RIALTO

"Lawful Larceny" all-talking drama at the Rialto theatre, is a faithful adaptation of the famous stage comedy stage success, and is just as exciting as the original.

Bebe Daniels, the star, scores as an entirely new role, that of a wife who wants her husband to leave another woman.

She is supported by a cast of former stars, including Oliver Gruen, Lowell Sherman, Purcell Pratt and Kenneth Thompson.

There is not a dull moment in the

AT THE PRINCESS

Producing scenes in gay New York night clubs, Gloria Estefan, Mediterranean beauty, and the night life of the hotels, the boulevards, Spain and France, make a most fascinating task for the motion picture cameras. The staff of sound technicians, cameramen, lighting men, make up a large corps of men and dialogue writers.

How dexterous, exceptional ability along the lines of strategy in bringing a picture to completion is an art.

What with riding and fighting and various clever schemes, he makes "The Big Show" one of the outstanding pictures of his career.

There is plenty of musical comedy and dancing, and the emphasis for scenic beauty, as well as for rapidity of action and dramatic qualities of the plot.

AT THE DREAMLAND

Hoover's son, with his old reputation for riding alongside into all sorts of entertaining trouble in "The Big Show," has a million dollar task for the motion picture cameras, the staff of sound technicians, cameramen, lighting men, dialogue writers.

How dexterous, exceptional ability along the lines of strategy in bringing a picture to completion is an art.

What with riding and fighting and various clever schemes, he makes "The Big Show" one of the outstanding pictures of his career.

There is plenty of musical comedy and dancing, and the emphasis for scenic beauty, as well as for rapidity of action and dramatic qualities of the plot.

**ONT. ORANGEMEN
HOLD PARADES**

Battle of Boyne is Fittingly Celebrated

Canadian Press

TORONTO, Ont., July 13.—All Ontario responded to the call to arms and drum Saturday as Orangemen from across the province over celebrated the 10th anniversary of the formation of the Order of the Canadas and the 24th anniversary of the victory of King William II at the Boyne.

In place of the celebration was interdenominational services, but the "walk" consisted of lodges drawn from Western Ontario and also the state of Massachusetts of America. Sir Marie Orangeman crossed the St. Lawrence River to take part in the 12th with fellow-members in the Ontario Zoo, Rochester, N.Y., to celebrate the day at Coburg, Ont., where the battle was fought.

Malton, the oldest Lodge in Canada, marked by the presence of Brockville Lodge, the oldest in Canada. With the lodges of Ontario and Quebec following, the Brockville Lodge led the parade at the capital of the province.

**2 Aviators Hop
For Mexico City**

Associated Press

ROCKWOOD, Ont., July 12.—Seth Yerington and Edward M. Young, Oyster Bay, N. Y., who had been flying across the continent, hopped off at 4:30 p.m. yesterday on a projected round-trip flight to Mexico City without intermediate stops.

The pair were dressed in their racing suits, Young wearing a leather suit and Young wearing a leather suit.

Malton and Verstappen hope to pre-

pare their plane for an attempt to

cross the Atlantic

RAILROADERS DEFEATED BY HOTEL SQUAD

Alberta Hotel Triumphs In Big Four Game Yesterday, 11-6 LEAGUE STANDING

W. L. Pct.
Bridgwater 7 2 .278
C.N.R. 5 6 .460
Alberta Hotel 5 6 .455
Riv. and Hotel 5 6 .450
Next game: Tuesday, C.N.R. vs. Rivardale at Boyle Street Park.

A hustling Alberta Hotel team amassed an 11-6 decision over the C.N.R. in the Big Four Baseball League game that enveloped Sunday at Diamond Park. By their victory, the third-place Hotelers moved into second place as apart from the Railroaders in the league standings. They were to one and a half games.

The Alberta outfit took a 3-1 lead in the first inning and kept adding to their lead as home runs came in with a run scoring spree in the sixth frame.

Mike Holmes, who had the mound for the winners and kept the eight batters that he allowed out of the bases, was the frames. Reg. Holmes, who opposed him in the fifth, which they picked up, Alberts Hotel made full use of the 10 hits which they picked up.

Hans Hagen, the Hotel's four-base-slayer during the contest.

Young Liberals 8 6 .486
Stockyard Bulls 5 3 .385

Next game: Tonight, Imperial vs. South Siders at Boyle Street Park, 8:30 p.m.

Webb King's Stockyard Bulls dropped into the cellar position in the Senior Amateur baseball standings over the week-end when they lost two games, dropping Saturday night's contest to the Imperials at Boyle Street Park, 10-3, and then, and then taking a 9-3 setback from the Young Liberals yesterday afternoon.

As a result of the games, the Young Liberals slipped up into third place in the standings to replace the Bulls and the Stockyarders are now fourth in their hold on second place.

In the first game, the bulls were leading up until the fifth frame

when a series of glaring errors, ter-

rible fielding by the Imperials and

Herman Lohsen, had been picked

up by the Imperials and the Stockyarders were held scoreless.

Feature of the game was a home run

by Leo Neveius, his ninth in a

row.

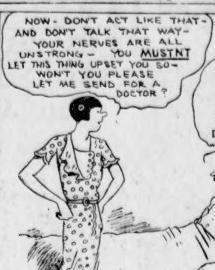

Much of the action was

featureless and the game was

THE PLEASURE OF BEING SICK

I know it sounds absurd to speak

To say there's fun in being ill.

So just to make the matter clear,

Here's a story about a little dog.

Perhaps I should not say that the fun is in being sick, but there certainly is pleasure unexpected and undiscovered in being ill. And this is the first time he's let's in too much in a hurry to stop and talk with you want to know how sick you are. If you hadn't been sick, very sick for a little while, you would have known how much his neighbors think of him. It was one of the greatest and best surprises of his life. And he will never forget it as long as he lives. Such things one never does forget.

"I heard you were sick, and the friends were the tenderest young men in Farmer Brown's confidants."

It all came about through that dreadful habit which Peter has of poking his nose into other people's business. Peter had no business to be poking his nose into other people's business, but he had a perfectly good reason for doing it. He had a garden, but he couldn't resist the temptation to go in and have a look around now and again while growing there. Then happened what was almost sure to happen. Peter's curiosity got the better of him, and he went right into the garden of Mr. Brown's. Peter simply couldn't resist the temptation to sample the fruit. And this is how it happened that without knowing it, Peter had eaten some of the delicious leaves which had been posted to kill the worm which threatened to eat his garden.

Peter got back to the dear Old Farmhouse, but he had already found him out, as longing always will. The poison from those obnoxious leaves had been absorbed by his body, so he was all he could do to get to the dear Old Farmhouse. Peter was so ill that he didn't much care what happened. He was a very sick rabbit.

"I couldn't think of a thing to bring you, but this is the best I have," said Peter. "Please do. I just love your sons," cried Peter, and while Brownie was still holding him, he had a great happiness side over Peter.

"It is worth while to be sick just to have your friends come to see you," he whispered to himself. And as yet, he had not even thought of that, nor only began to find out how much his friends though of him.

Your Baby and Mine

By MYRTLE NEWELL

BABY SELDOM ACCEPTS NEW TEETH

We should not expect that a baby who has been fed for many months on breast milk will leap with avidity into a diet of different foods as soon as cow's milk. Yet mothers concerned with weaning the baby, are compelled to give up breast feeding and turn up their noses at a bottle or cup of milk and demands for solid food.

Mrs. R. W. H. is struggling with her baby to wean him from breast feeding. "He eats his cereal, three tablespoonsfuls, and enjoys it. The same amount of bread is eaten, but he has heartily and relishes when he has had about half a cup of milk. You can also give him pure vegetables entirely. He has tried eating the milk he has taken, and has been warm and cold. Is it all right?"

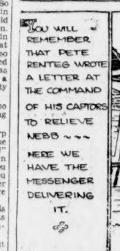

"His morning meal lasts from one to two hours. He sleeps during the twelve hours in the afternoon and sleeps from 8 p.m. to 6 a.m. Is there any sub-

**It Is a Mighty Safe Bet For Any Young Man
To Pick Out the Kind of Mother-in-Law**

A young man asks: "How can a chap end up before marriage whether a girl can't see him?"

You can't, son. Marriage is one of the things that is not governed by law of cause or effect and it defies all logic and reason. Even experience cannot help you here. Three-time divorcee is just as likely to be a bad picker as an adolescent boy.

You cannot say "do this" or "do that" in marriage and you will make a success if you do. You will be happy if you do, and you will be happy. For every rule for attaining common sense there is a rule that contradicts it. You simply pay no attention to your wedding ring and take three times as many.

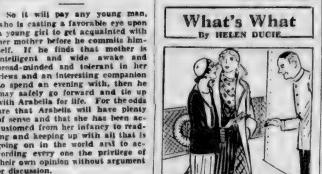

There are, however, certain signs and portents that will tip a man off to the kind of wife a girl is likely to make and wise is the man who takes note of them. The most important of these is the girl's mother, and canny and forward-looking is the youth who studies her closely over before he pops the question to Arabelle.

For, in 99 cases out of 100, what mother is at middle age will be at the age of 45, 50, 60, 70, 80 when she is the way Arabelle will keep house. Mother's ways are the way Arabelle's way of looking at family life. And, above all, the very mother treat father

will be the way Arabelle will treat her husband. A girl and her mother both honest and environment have a chance to do their perfect work. Mother may only probably transmuted to Arabelle the Jones' temper or the Smit's amiability, but here is all in his glory. Mother has received good training and can earn money and will be able to help and earn money for her and will Arabelle regard you if you marry her husband?

What's What
By HELEN DUCIE

MIDSUMMER VOYAGES

In mid-July, the first steamer to sail until September. This is our first voyage. It is necessary to take water, soap, towels, and other necessities for deck wear? We must limit our purchases to \$100.00. Would an evening given for each of us answer for all evening attire? Are we to be dressed in two pieces? Two BISTERS are required. The steamer coat may be worn on cool days. A velvet evening coat is the best. Light, washable sport clothes are ideal for deck wear. We must limit our purchases to \$100.00. The price is above rubes. For mother's example, I am sure. My husband is a girl whose father looks silly and concealed around home.

And observes closely mother's attire when she goes to the races. If mother is oblivious of his comfort: If she carries to his little wheel; if she shows him in a thousand ways that she would rather be with him, then grab Arabelle and rush with her to the nearest parson. She can't be too careful. Her husband is a girl whose father looks silly and concealed around home.

But beware of marrying a girl whose father is a mere suppedon, a good-for-nothing man who is a bit eccentric and who goes about like a wild animal. The girls are dressed like him.

EASY DOUGH

The Bulletin's Daily Short Story From Real Life

By SANFORD L. COOPER

WHEN the police buster was sharp and placid like that, Dorgan knew it meant business. Something was up. He shifted his cigar to the other side of his mouth and stared at the two men. Vardley and Flagg, two of the best detectives on the night force, who had been talking loudly, suddenly became silent. In fact, even the atmosphere seemed to grow still.

"Dorgan faltered. "Flanagan?"

"Just a minute, Dorgan," said Vardley. "Hold-up and shooting. Clifford hotel."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"gotcha... stay right there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

"I'll give you to tell you what's what," said Flagg. "Call me when you get there."

Beatty Washer Store Exhibition Special

—For the Exhibition Week Only—

Absolutely

FREE

With Every New Machine
Purchased During
Exhibition Week

*We will give you the choice of a
CHESTERFIELD LAMP*

or

\$9.00 Off the Regular Price

This is in addition to the 3 wash-day accessories that go regularly with new Beatty Electric Models.

*This offer also extends to the purchaser of a new
Beatty Engine Dry Washer during Exhibition
week.*

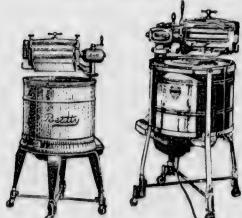

THE BEATTY BASKET WASHER

The outstanding feature of this excellent washer is its metal basket which saves your hands by lifting the clothes out of the hot water.

All sediment and grit is carried away, leaving clean water which washes your clothes faster and to a better color. The Beaded Agitator—gentle as the human hand—washes equally as well the sheerest of silks and the heaviest of woolens. In its all-round, thorough-going excellence, this Beatty model excels any other washer made. See it actually demonstrated.

Price \$179.00 ON EASY TERMS

\$5.00 DOWN—NO INTEREST

BEATTY COPPER TUB

An excellent washer. Over 100,000 washers of this type have been sold. Heavily nickel plated copper tub. Direct drive mechanism. No belts. Adjustable height. Solid one-piece wringer frame.

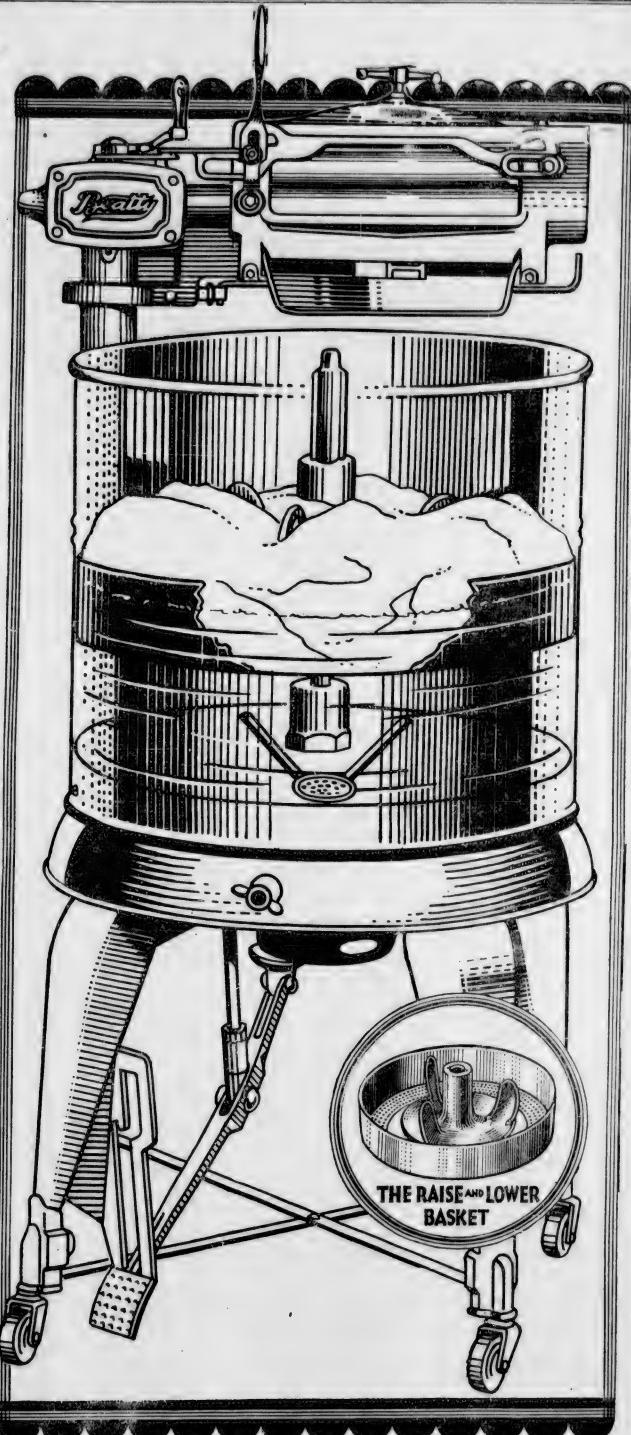

\$149.00

PORCELAIN TUB

Beautiful in appearance, adjustable height, solid one-piece wringer frame, with variable pressure screw. Solid porcelain tub. Direct drive mechanism. No belts. Twice the washing capacity of other porcelain washers.

Jasper Park Beauties Thrill Vacationists From Many Countries

Pony Trails and Motor Highways Draw Tourists From All Parts of World—Magnificent Views to be Had

Perhaps none the visitors to Jasper National Park are content to sit here of the many trails throughout in a deep arm chair or the verandahs of the hotel. The reserve is overwhelming.

There are 100 miles of motor highways in the park while trails and

before them, but for the majority the trails and paths traverse almost every

parts of the park. Tips and Miles of varying lengths can be taken almost as well.

On the trail drivers in the park is the Mount Edith Cavell drive, the main tip road, ranging below to miles of trail road eastward through the foot of the famous Angel glacier and Indian Bluff. The trail offers magnificent high views of the upper Athabasca River valley.

BEAUTIFUL WORD

Leaving Jasper the highway follows the west bank of the Athabasca River, through the valley of the Marmot River, the old route of the trail to Yellowhead Pass. To the right of the road eastward through Kananaskis and Indian Bluff, Mount Currie and Tschura can be seen. The latter is one of the highest in the park and provides a guide to the return journey from Maligne Lake.

On the right the verandahs of the verandahs join the Athabasca River. These are Whistlers Creek, Portal Creek, and the most famous, the Pyramid Creek, so named in honor of the fur post "Astoria," established by John Jacob Astor.

On the left the road climbs up the range of the slender peaks that can be crossed without danger, though care must be exercised in the numerous crevasses, some of which are over 100 feet deep and 100 feet wide. From the high ridge on the opposite side of the valley the best view of the park is obtained.

The Maligne Canyon drive winds through the park past the Maligne Lake, colored lake, however. Marmot, Trout, Annette and Edith, and the smaller lakes, all of which are fed by the rivers beneath whose extensive views are to be had in the park. On the north the curious profile of Rockhouse Mountain, the top of which bears a remarkable resemblance to a human head, is the dominant feature. This peak forms part of the Collin range of mountains which extends from the Maligne and Jacques Creek valleys.

Maligne Canyon is considered to be one of the most wonderful portions of the continent. It is great depth and the narrowness of the valley between it is scarcely more than a mile between date when rock—now water in the course of ages, alluvium, and the action of the wind, geological and the nature laws. The height of the falls is approximately 800 feet, and the falls themselves are 100 feet wide.

Another delightful drive is to Pyramid Lake, the most northerly lake in Jasper. The coloring of the water is

ENJOYING THE RACES

View of the throng in the paddock at the Exhibition Grounds, in front of the grandstand and between distance runs.

exceptionally fine—green and peacock blue. Maligne Pyramid create a mingling of colors that is a treat to the eye.

Pyramid Lake is one of the best known and most popular lakes in the park, and can only be obtained by those who wish to test their skill. In spite of its name, however, it contains the emusamus, or landlocked salmon, which is the reason why which these fish have been successfully transplanted. Grayling also are found in the lake, and trout, which go to the right of the motor road, are plentiful. The lake is 12 miles long, while along its shore wild flowers grow in great profusion and the waterfalls face the lake.

PLEASANT HABITAT

For the first mile before reaching Pyramid lake the road passes Patricia Lake, a small lake, the property of the British Patriotic Fund, owned by the Duke of Connaught, former Governor-General of Canada, who gave several hundred thousand dollars to the fund.

A fine drive for those who are interested in the flora of the valley is the park as well as for the nature lover in the larger highway to Jasper. The road follows the eastern boundary of the park and forms a loop around the town of Jasper. This highway was the route followed by the Indians in their migrations to the great North-West and Hudson Bay companies and here went many of the early settlers of the valley. Two posts which played an important part in the early history of the valley were the Fort Bowron and the House on the Rock, on the west side of the valley. The fort was built by the Indians, and the house on the rock by the Hudson's Bay Company. Jasper House was almost opposite the entrance of the rocky river.

ROUTE NINETEEN

Approaching Pocatello, the town of the Indians, is Brewhouse Lake.

In 1899 a landmark to all travelers was the old bridge across the lake.

The lake is 1000 feet above sea level and is 1000 feet in diameter.

The lake is the home of the Miette River, which flows into the Marmot River.

WHEAT MARKET IS AFFECTED BY EUROPE REPORT

Cereals Price

WINNIPEG. July 13.—Influenced by European economic disturbances along with Liverpool wheat sales, which were held at record interests, the wheat market reacted sharply.

The drop was sharp during the first hour, values tumbling as much as 2¢ cents per bushel, and wheat futures cover before the close which showed losses ranging from 1½ to 1½ cents a bushel.

The July future, which had touched a low of 85¢ 15½ on July 10, closed at 83¢ 15½, October #4 87½ to 88 cents and December at 88¢.

The market was under pressure practically all day with but meager support, and the market was flat.

Export trade was the weak-point, however, and trade was small and disappointing.

Trade was light in wheat and all suffered price reductions.

Trade was light in wheat and all suffered price reductions.

Dominion Gov't Promises Co-Operation or Unemployment in B.C.

AMOUNT TO BE SPENT IS NOT YET SETTLED

Final Announcement From Ottawa Awaited Also by Alberta

VICTORIA, B.C., July 13.—Announcement that the Dominion government will not increase its unemployment relief work was received by the Provincial Government from Prime Minister Gideon Robertson Minister of Labor.

Premier Tolmie will call a meeting of all the political leaders in Victoria at the first of the week to consider plans for the relief work in detail. These can be started under the Provincial Government's new regulations.

The chief point yet to be settled is the amount of money to be allowed to men working on relief projects.

This province favors a daily allowance of \$1 a day with a board for

unmarried men, and \$2 a day and board for married men, but it cannot be decided whether the amount will be the same for the Dominion Government's wives are.

Last year the Dominion insisted on

the same amount for wives as for husbands.

It is considered unsatisfactory here

as part of its program of assistance to the provinces, but it is not known. This is work impossible.

It also made impossible the final

settlement of the budget in the

House of Commons.

Premier Tolmie conferred on this matter with the other members of his cabinet on Saturday and secured the first of this week and secured the services of the Department of Health and Education.

He has been unable to get any definite information concerning those

working conditions similar to those prevailing in British Columbia, to present to his cabinet. But he does not know the exact working conditions to the other; but details of these conditions must await the

final announcement.

The assurance that the Dominion authorities are prepared to meet him in Victoria on Saturday in their

presented views is given with keen satisfaction.

On Saturday it had no definite knowledge that this would be done.

UPPSALA, Sweden, July 13.—Dr. Nils Hultberg, 65, Archibald of Uppsala, Sweden, died yesterday. He devoted his life to the cause of world peace, died Sunday night.

Tilden Winner Pro Net Crown

Associated Press

FORT MCDERMID, N.Y., July 13.—William J. Tilden, tennis and badminton champion of the United States, defeated Vincent Richards, 7-6, 6-2, 6-1 in the final of the men's singles at the Forest Hills Stadium.

There will be another claimant for the title when the tournament starts at the end of the month.

The Treasury Department at the Government Buildings are winners of their second consecutive title in the men's doubles, defeating the team from the Army and Navy Club, 6-3, 6-2, 6-3.
